

Implement a digital COVID-19 assessment solution for your school to provide peace of mind for parents as you reopen.

COVID-19 *RapidResponse* is a rapidly customizable SMS/IVR (robocall) and web-based tool that can adapt to risk, volume, and specific protocol needs. This tool can be used to engage with parents, teachers, and students to assess COVID-19 risk prior to the start of each school day.

Save staff time with easy distribution and tracking of COVID-19 assessments

Keep sensitive student and staff information secure with our HIPAA/PHIPA system

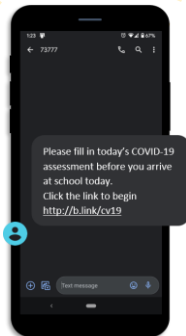

Be prepared for ministry audits with automatic generated assessment records and data management tools

Identify risk early to prevent COVID-19 outbreaks at your school with an insights dashboard

1 Daily Automated Assessment Outreach

Deliver and prompt staff or parents to fill out a COVID-19 Assessment survey before being allowed entry to school.

2 Personalize Follow-Up

Risk score will be provided with personalized next steps for attendance.

3 Generate Proof of Screen

Quickly check screening status at a glance with a unique color or image for the day.

Student List

Student ID	Name	Class	Risk	Date Completed
748291	Kynan Morrison	3A	High	2020-08-07 7:14 AM
952729	Ruby-Leigh Zavale	3A	Low	2020-08-07 7:43 AM
883927	Haidar Lucas	5A	-	Incomplete
934728	Jaylen Adam			
482947	Naomi Bullock			
899472	Sherri Bell			

4 Monitor Status

Operational Dashboard displaying screening risk information and follow-up actions

5 Surface Insights

Surface data insights regarding specific exposure patterns and at-risk students
